Mr. Tibbitts is a retired druggist, formerly located in Boston, and is a thoroughly reliable citizen .-U. S. POSTAL SERVICE.

H. S. Whitney, Assistant Postmaster, Putnam, Conn., writes May 3, 1883: "I have used Hunt's liver complaint; my water was very bad, at times I actually passed blood. This was followed by general prostration. My business requiring me to be on my feet most of the time made my case worse. I was advised to use Hunt's Remedy by a friend who had been cured by it, and can truly say that it has enefited me more than all the other medicines I have used. I consider it the best medicine for kidney and liver troubles, and cheerfully recom. mend it to all.

A SCRAP OF LITERARY BISTORY-"UNCLE TOM'S CABIN."

A very buoyant floating item, credited to the Chicago Inter Ocean, is now making the rounds of the press, in which item it is ploy two or three thoroughly competent made to appear that Mr. Jewell, the and representative men, at good salaries. original purchaser-in book form-of Mrs. Stowe's "Uncle Tom's Cabin," has been "interviewed" concerning the early history of that work, and in the interview has stated that Professor Stowe and his wife. Harriet Beecher Stowe, appealed to him (Jewell) with the manuscript, offering is for sale ; that Professor Stowe advised his wife to sell it for fifty dollars, or "a new black gown," but that Mr. Jewell, in the plentitude of his generosity, dissuaded the silly couple from parting with the copyright; and that subsequently, when the first dividend of ten thousand dollars was due and payable he gave Professor Stowe, to his immeasurable astonishment, a sheck for the ten thousand dollars: that the Pro feasor was so ignorant of commercial custom and law that he did not know what to do with the check, but that he (Mr. Jewell) kindly went with him and his wife. explaining to them the check system, and advising them to deposit the proceeds of the check in the same bank upon which it was drawn.

Now, if Mr. Jewell is the author of these statements he is guilty of willful There are others quite as important, and misrepresentation; and if the Chicago Inter-Ocean invented them and placed them in Mr. Jewell's mouth, it has perpetrated a gross fraud, and has misrepresented the history of the book. The early history of the work may be presented briefly, as follows : Doctor Gamaliel Bailey was the publisher of an anti-slavery Cincinnati, Ohio, from about the year 1844 to 1849. During the brief period of the publication, or attempted publication, of this paper the type and press were thrown into the Ohio river on eight separate occasions by mobs. The anti-slavery sentiment of the country rallied to the support of Dr. Bailey, and he was furnished capital sufficient to catablish a weekly paper, devoted to the anti-slavery cause, in the city of Washington. This he did some time early in the year 1849, naming his paper the National Era. It was by far the ablest paper devoted to the anti-slavery cause every published in this country. Through Its columns the public was first introduced to Alice and Phebe Carey. The very first poetic efforts of these gifted women appeared in the columns of the Era. Sarah Jane Clark (Grace Greenwood) -- now Mrs. Lippincott-furnished her first article for publication to the same paper. Emma D. E. N. Southworth, now a literary celebrity, wrote her first story for Dr. Bailey's paper. It was entitled "Mark Sunderland, or the Story of an Island Estate." Martha Russell, the author of some brilliant sketches, was, at the time of her first literary efforts, a servant girl in the fam-

lly of Dr. Bailey. Early in 1850 Dr. Bailey wrote to Mrs. Harriet Beecher Stowe, then residing in disarm. There is no reason at this day for the Cincinnati, inclosing a check for \$200, re. maintenance of the vast armies now in array on questing that lady to write the best story the continent. The very fact that Bismarck conshe could for the money and forward its templates the call, testifies to its necessity and foreshadows the accomplishment of the suggestion chapters in installments to the office of the he makes. National Era. Mrs. Stowe accepted the offer, and it was announced in the columns fever, as it is by local physicians judged, it will be of the Era that a short serial story by Mrs. a wise precaution to act here as if it was assured Stowe would shortly appear, and the title that the disease is indeed yellow fever. By so doing given in this preliminary announcement we shall be on the safe side. It will not do to speculate upon our chances in these matters. That con was "Uncle Tom's Cabin; or, the Man dition of the atmosphere which invites yellow fever Who Was a Thing." When the first may be found in localities in California, and therechapter of the story, however, appeared in fore to prevent the incoming of the disease will be PACIFIC SLOPE.

The story was a great success with the

readers of the Era, and finding that it was

attracting general attention, Dr. Bailey,

EASTERN CLOTHING

CHANGED EVERY DAY FOR THE ME HANICS' STORE,

Last Spring we bought from an Eastern manufacturer a line of SUITS, which gave great satisfaction to our customers. Many of the garments, in finish and style, were more than equal to custom-made work, while we have yet to hear the first complaint in regard to their wearing qualities. The success of this Clothing prompted us to place orders with the same house for many thousand dollars' worth of their goods. This Clothing is now all here, and we invite careful inspection of it in every detail, and particularly by those who are accustomed to having their clothes made to order. The following will give some idea of the assortment:

Neat Dark Union Cassimere Suits, with green mixture (sack style), \$8 50.

Dark Grey, with brown mixture, Union Cassimere Sack Suits, \$10.

Frock Suits, Narrow Dark Brown Union Cassimere, \$12.

Has been more destructive to human health and life than war, pestilence and famine combined." So said a distinguished writer many years ago, and it is as true to-day as then. The poor victim of Blood Disease is drugged with Mercury to cure the malady, and then dosed with lodides to cure him of the Mercurial Poisoning; but instead of any relief, the first breaks down his general health and makes him a cripple, and the other ruins his digestive organs. To those afflicted in this way Swift's Specific is the greatest boon on earth, and is worth more than its weight in gold. It antidotes this Mercurial Poison, tones up the system, and brings the sufferer back to health and happiness. Every person who has ever been piness. Every person who has ever been salivated should by all means take a thorough course of this remedy.

JEFFERSONVILLE (Twiggs Co.), Ga.
Five years ago I found on my plantation a
colored man who was badly diseased. He
stated that five years before he had contracted a violent case of Blood Poison, and
had been treated by many physicians, all
failing to cure him. I treated him with
Swift's Specific, and in a short time he was
sound and well, and has not had a symptom
of the disease since. D. M. HUGHES.

One gentleman who had been confined to his bed six weeks with Mercurial Rheumatism has been our i entirely, and speaks in the highest praise of S. S. S. Cl. ILES & BERRY, Chattanooge, Tenn. \$1,000 REWARD will be paid to any chemist who will find ou analysis of 100 bottles S. S., one particle

Will be Sold in Parcels to Suit Bayers. The land is some of the best agricultural land in the State, in a belt of country ALWAYS SURE OF The soil is of varied character, sandy loam, brown and red loam, and red gravelty loam, with strata of clay underlying the whole country. Summer fallowing, or twice plowing, insures a large crop and a certain one in the dryest years.

There is comparatively no waste land on the farm, and no trace of alkali. White and live oaks are scattered over the tract. Every inch of land is tillable. There is no failure of crop in this section, and in 1877, a dry year throughout the State, a fine, full crop was grown on this ranch. Skinches of rain will insure crop. No rust troubles the grain.

An underlying strata of pure water is found free from alkali or deleterious matter. Numerous living springs are scattered over the ranch. For domestic purposes wells have been bored, and windmill and horse-power are utilized. lowing, or twice plowing, insures a large crop and a
